

What schools are saying about Synsport on SchoolAdvisor

Professional and Highly Reccomended

The product is awesome and the staff are knowledgeable and professional throughout the installation and follow up. I would highly recommend this company.

High Standard Work!

Synsport engaged with us with honesty and integrity and their after-sales-service has been outstanding. They make regular visits to the school to ensure there are no problems. They are definitely not "take the money and run" operators. Their client rapport is excellent. I have no hesitation in recommending Synsport to any school considering developing a synthetic hockey facility. Our experiences with them at Selborne and Clarendon leave me in no doubt that they rank with the very best in their field.

Excellent

When our governing body approved our Astro project, the first company that came to mind was Synsport. As a hockey coach who travels to a lot of astroturfs, one brand definitely stood out above the rest: SYNSPORT. Their previous projects like Western Province Cricket Club and Hartleyvale speak for themselves, and these clubs would also only pick the best to get the job done. Synsport installed the Astro at our school quickly, effectively, effortlessly and without a glitch. It's not only their name which is connected to their brand that stood out for us but also the aftermarket service they provide: maintenance, repairs and a good warranty. Looking back on their completed project, we can say that we are so happy that we picked Synsport from everyone who tendered. They provide a quality product, with professional people with adequate skills to handle installations. I would recommend Synsport to anyone, anytime!
