

What schools are saying about Synsport on SchoolAdvisor

Synsport are Superstars!

We are extremely pleased with the approach, commitment, communication, and follow-through from the Synsport team. We particularly appreciated their personal involvement in all facets and stages of the installation of our Astro turf field. They responded to all queries, allayed any concerns and reacted quickly to temporary complications that arose. Synsport also supplied and installed our new cricket nets. I would happily recommend Synsport.

Multi-Sport Surface for Sun Valley Primary School

Synsport worked with us from the design phase. Their service and customer relationship strategy are exceptional. We received a weekly voicemail from the Project Manager and Dylan was a call away and responded quickly. We pressurised them to complete the project in a ridiculously short time so that we could have access to the Astro for winter sport. They achieved the task. I would strongly recommend them and will certainly use them again.

Stellenbosch High School

They installed the astro at Stellenbosch High school quickly, effectively, effortlessly and without a glitch. It is not only their name which is connected to their brand that stood out for our school but also the aftermarket service they provide: maintenance, repairs and a good warranty. Looking back on their completed project we can say that we are so happy that we picked Synsport from everyone who tendered. They provide a quality product, with professional people with adequate skills to handle installations. I would recommend Synsport to anyone, anytime!

Multi Sport Surface

Synsport did an incredible job installing a multi-sport surface onto tennis court. They were very helpful during the exploratory phase and then the installation was quick, neat, and had no impact on school life. Their pricing was competitive, and the end product is outstanding.
