

## Endorsement letter

Synsport flooring has truly elevated the standard of PSi Nationals and allowed us to host a world class event like The Nkosi Cup. From the moment the Taraflex court was installed, the impact was clear, not only in the quality of play but also in the overall experience for both players and spectators, as well as production for online streaming and live broadcasting.

The flooring has provided an exceptional surface that enhances performance with its smooth and consistent finish, ensures safety with its traction, and allows players to compete at their highest level. The comments young PSi players as well as international players have made about how much they enjoy playing on the court is testament to the courts integrity, noting its consistency, responsiveness, and professional feel. The versatility of the Sport Court makes it a great product for both a long term/ permanent fixture or a temporary feature at an event.

Synsport has been a game-changer for PSi. It has raised the standard of presentation and professionalism, giving players and fans alike a world-class environment. We are proud to associate with a company that delivers excellence and sets the benchmark in indoor sport flooring.
